

LuBoron™ ENGINE TREATMENT

DESCRIPTION:

LuBoron Engine Treatment additive is designed to extend the life and operating range of your engine. It blends with your existing engine oil and contains boron-based components that protect vital working parts from friction and corrosive elements.

LuBoron Engine Treatment actually forms a near-diamond hard surface on metal parts, providing a super-slick surface. The new surface also blocks oxygen to prevent corrosive activity. This micro-layer of protection is bonded to metal surfaces with strong covalent and ionic bonds. It provides long-lasting, low-friction surface impervious to most contaminants.

USAGE:

LuBoron Engine Treatment works with any four-cycle engine when added to the crankcase oil at a 10:1 ratio. A single pint container treats a normal five-quart crankcase.

APPLICATIONS:

All internal combustion, four cycle-engines of any horsepower can benefit from this one-time treatment.

SPECIFICATIONS:

Color.....Translucent Tan
Base fluid.....Full Synthetic
Viscosity.....20 W 50
Flash Point.....180 C.
Solids.....Boron Variants
D.O.T.Unregulated
V.O.C.None
Biodegradable.....Yes

PACKAGING:

16-Oz. (Pint), 5 Gal Pails, 55 Gal Drum
